Dear John:

I am writing this dictation out until my recorder is back. At any rate, Michael has begun to reintroduce his energy into the foundation once again. For sometime his energy has not been that strongly fed into the group because everyone has gone off on some of their own personal expressions and lost sight of the foundation goals and the desire of hierarchy to work through the group.

Now once again the energy is starting to come together as a unit but much work must be done to harmonize the group energy and effort. Rather than me continuing I will now call on Michael to express more directly to you.

Brother --

It has been some time since our last communication and I am pleased to see the channels of communication opening up once again. Conditions surrounding yourself, Jim and several in the core group, has truly blocked a good flow of higher influence. Many have been very involved in personal matters on a physical and/or emotional level and this has blocked much of our influence in your lives both personally as well as concerning the foundation.

We are beginning to find new areas of expression through each of you but it is of vital importance that each of you focus yourself somewhat toward spirit and hierarchy daily in order to allow the flow to increase and truly manifest in your lives and the foundation.

So many times, personal involvement has thrown you off center from your spiritual nature and grounded your flow of expression to one of material goals and self-expression rather than allowing higher purpose and expression to manifest.

This is why you see so much struggle within the foundation as a whole, for it is a reflection of your outer struggle. Just as the child is influenced and expresses to some level the stress and struggle of the parents so too the foundation reflects the struggles of the parents - you the core group.

In order to better aid in correcting this situation we again are asking you to consider setting a time daily when each of you spend at least 15-30 mins. a day and go within and meditate and unite yourselves more with this higher light and expression. Then toward the close of this meditation close by focusing this Love & Light to your child - The Foundation - in this way you will revitalize the foundation and bring it back up to the working level it should be. At times in the recent past it has been for several of you only of importance once a week when the group together became united for an hour or so and then was put out of mind til the next week. This does not work if the foundation is to survive and fulfill its mission on this planet. You must feed and nourish your child daily or it will starve and die from neglect. Daily unite and focus your love and nourish your child the foundation.

Remember we shared with you the birth of a child within the group, or a child of Energy, you collectively had created. This is that child, the foundation and it must be remembered and worked with daily.

Also, each of you have been seeing the foundation in different ways for different purposes, so you must find a common ground and a point to start from to begin moving forward to start the foundation moving toward its correct expression. Some of you are projecting things into the foundation because we have given you a vision of things yet to be. But remember this, we have given a vision of things to come in the foundation and in your personal work to help motivate you. The thing to remember though is that the present must be fulfilled before the future can. So work on the present projects of foundation work and allow the foundation and each of you to mature to the future state.

The foundation must begin its research endeavors before it can reach out to educate, so work on the research area first. From that knowledge you can then go forth to educate. "Many people are called but few are chosen" is a saying which relates well here. For many have been called but few have chosen to be of service - and here with each of you this story is so true. Many more besides yourself have been summoned to work with this project and others like this one, but few there are who are willing to release much on a personal level and truly be of service. You have chosen and this is why you are here, but even after you are called and you have chosen the life of service, daily you must renew this decision and choose anew your path. Today we of heirarchy ask you to again choose and renew your "path of service". You must not allow Ego to become a part of your service or the service of the foundation. Ego is the great corrupter and will bring down the good faster than anything. So be aware of Ego in self and in the foundation. Please hear this warning for you will see it means much in future events.

And now, we feel there are many areas of research you could pursue but you but you must find one to start with. Remember here the Ego factor, PLEASE.

One area would be in clinical work with Holistic Medicines versus traditional medicines and learning to unite these areas more.

Also a research lab could be set up or you could function with an ongoing lab, doing research in herbal medicines and the effect in the healing arts. Much knowledge there is yet to learn from nature and many there are in the world who have the knowledge, but few there are who listen. Tibet, China, India, American Indian, Hawaiian, etc. have much knowledge concerning these areas and more. Also mystics in England, France, Spain also have much to offer as well.

A door into this has already been opened with regard to Tibet for you. Look and see what might be there to follow.

Also, there are a lot of new areas of research being developed concerning medical treatment and diagnosis which you could check into for research and development, both.

Three steps must be taken right now if the foundation is to work and be successful.

Harmony and Unity is one -- unity of energies and unity of purpose.

Organization is a second, this concerning organizing steps or procedures as well as everyone knowing his role and fulfilling that role.

Motivation - for the group as a whole must stay motivated and keep the foundation alive and functioning if it is to fulfill our goals and yours.

Unity, Organization, Motivation. These three areas must be developed and maintained if you are to succeed.

Until next we meet through this source, blessing and light to you all.

Michael.

So John that is it for this time. I will get the tape on Egypt out as soon as I get my tape recorder back. Hope this letter will help out some. I know it has helped me a great deal.

In the Masters  
Light & Service,  
Jim
